

MEETING OF BAR ASSOCIATION.

Officers Elected for Ensuing Year.
Matters of Importance Discussed.

A most interesting session of the Gainesville Bar Association was held at the office of Col. W. W. Hampton Thursday afternoon, which was well attended, as there was a great deal of business of importance to be transacted, including the election of officers for the ensuing year.

The meeting was called to order by President Hampton, after which the business of the session was taken up, the first being election of officers for the ensuing year, which resulted as follows:

Judge Syd L. Carter, president; Christopher Matheson, vice-president; C. R. Layton, secretary and treasurer. Messrs. Hampton and Horatio Davis were elected as additional members of the executive committee, the officers of the association comprising a part of the committee.

The matters of revision of the fee bill and revision of the by-laws were discussed, and a motion prevailed that a committee be appointed on each. The committee will be appointed at a later date.

The question of certain matters in federal legislation was also brought up, and discussed with a great deal of interest. As a matter of course this was of a local nature, affecting Gainesville in particular, and it was moved that a committee be appointed to confer with Congressman Clark in the premises.

Attorneys Thos. W. Fielding and J. C. Adkins were admitted to membership of the association.

After discussing a few other matters, of interest to the association, the meeting adjourned until February 3, when it is expected that the reports of the committees will be ready, and "possum an' taters" will be served.

Baracca Entertainment.

On last Wednesday evening the Baptist Baraccas entertained the Philathea class at the home of Mr. and Mrs. Robt. McClellan.

It was an ideal night for such an occasion. Both classes were well represented. There were four interesting and amusing features of the evening, that of finding partners, a description contest, a drawing contest, and last but not least appreciated, the contest around the punch bowl.

The prizes of the evening were won by Miss Julia Bunch in the description contest, and Miss Maude Fielding in the drawing contest.

Meeting Medical Association.

The Medical Association held its regular meeting in the office of Dr. Clyde L. Carter Wednesday evening, at which matters of interest to the fraternity were discussed. While the meeting was not as largely attended as it might have been, owing to the fact that some of the members were indisposed, while others were detained on account of professional work, the meeting proved a most satisfactory one.

PROMINENT PHYSICIANS

Endorse Our Cod Liver Preparation, Vinol.

Many of the most eminent physicians are now prescribing Vinol as the most satisfactory cod liver preparation. Thus it is fast superseding other forms of cod liver oil and emulsions.

W. N. Rand, M. D., of Evans Mills, N. Y., writes: "From personal experience, I am able to appreciate the value of your cod liver preparation, Vinol. I have used it and prescribed it largely during the past eighteen months, and I want to say that Vinol is all you claim for it and more."

Dr. Bonchelle of Thomasville, Ga., a physician well known in the South, writes: "I use Vinol in my family and in my general practice with most excellent results for bronchial and pulmonary troubles and to create strength."

Another physician writes: "I am satisfied that Vinol derives its wonderful life-giving and strength-creating power from the medicinal curative elements found in the cod's liver. It is the most satisfactory strength-creating and vitalizer for old people, weak women and delicate children which it has ever been my pleasure to prescribe."

The reason that Vinol has such remarkable curative and strength-creating power is because it is made by a scientific, extractive and concentrating process from fresh cod's livers, combining with peptonate of iron (which is a needful constituent for the blood) all the medicinal, healing and body-building elements of cod liver oil, but no oil.

We ask every person in Gainesville who is in need of such a medicine to try Vinol on our guarantee to return money if it fails to give satisfaction.—W. M. Johnson, Druggist, Gainesville, Florida.

MUSICAL AND DRAMATIC.

The Club Will Have Another Rehearsal Tonight.

The rehearsal of the Gainesville Musical and Dramatic Club will be held Friday (tonight) at 7:30, at the house of Mrs. C. J. Richards. All the voice parts have now been copied and each member is requested to bring in his or her score, so that we may have all copies arranged and firmly bound in the order in which they appear in the opera.

Those to whom copies were originally given, and who are unable to attend, should return them, as new members have been frequently without a score owing to the fact that the edition was limited, the preparation of another would involve a great deal of exacting labor, and it is to be hoped that will not be demanded.

There is room yet for many, especially alto, bass, and tenor voices, and any member to whom an intimation of a desire to join is made will bring the matter to the attention of the club's officers who will arrange, if necessary, for private rehearsals to enable such new members to catch up on what has already been accomplished. W. E. CADWALLADER, President.

DR. CROW'S LECTURE.

Spoke to Fair Audience at Public School Auditorium Yesterday.

Dr. C. L. Crow, of the department of modern languages, University of Florida, according to appointment, delivered a lecture Thursday afternoon in the auditorium of the Gainesville Graded and High School, taking as his subject, "Higher Education in Germany, and in the United States."

Dr. Crow is a gentleman of refined education, and his remarks upon this occasion demonstrated the fact that he was well versed along the lines upon which he spoke. Those who heard the lecture were very much impressed, and felt that they had received a benefit.

Delightful Card Party.

A delightful card party was held at the home of Mrs. J. M. Haile Thursday afternoon, which was well attended, and which was highly enjoyed by all who had the pleasure of being present.

Five hundred was the game, and there were six tables. The prize was awarded to Mrs. Jackson.

During the afternoon a delightful inebriation of quail on toast, salads, etc., was served, and at the conclusion the guests voted Mrs. Haile a most charming hostess.

NEW PLEASURE RESORT.

John Chesser Introduces New Feature in Gainesville Sports.

The newest and most interesting resort at present in Gainesville of an athletic sporting nature is the box ball alleys on East Liberty street, next to the Gainesville National Bank, which have just been installed by John Chesser. The resort was opened for the first time Wednesday evening, and all during the evening, and Thursday and Thursday evening, were crowded with anxious and enthusiastic players.

Box ball is a new feature of athletic amusement here, and is destined to take well. While the game is played on the same principal as ten-pins, the exercise, while sufficient, is not so severe as to cause that soreness brought on by bowling, which gives the box ball a great advantage.

Mr. Chesser proposes later to install pool tables, and will conduct an up-to-date place in every way. He will have special afternoons devoted to ladies, and altogether the place will be conducted on a most refined scale.

A SERIES OF LECTURES.

Mrs. M. McKinstry Will Lecture in Advent Christian Church.

Rev. Mrs. McKinstry of Richmond, Va., will begin a series of nine lectures at the Advent Christian church on East Main street, Sunday, January 12th, at 11 a. m.

The speaker will trace the history of the world's four predominant empires, beginning with Babylon, Sunday morning. Subject of the lecture Sunday night will be "The Medo-Persian Empire." Monday evening the subject will be "The Grecian Empire." Tuesday evening she will take up "The Roman Empire," which will be continued under various phases for several evenings.

At the close of each lecture Mrs. McKinstry traces the prophecies foretelling the great events of history, and thereby establishes the accuracy of prophecy.

No admission; seats free, and those who miss hearing this lady will miss one of the treats of a life-time.

DEATH OF MRS. QUINN.

Well-Known Lady of This City Passed Away at Her Home in Memphis.

Information has been received in this city of the death of Mrs. Pat Quinn, which occurred at her home in Memphis, Tenn., Monday.

Deceased was forty-five years of age, and was a sister of Mrs. E. A. Davies of this city. She was well known here, having visited Mrs. Davies on several occasions, and had many friends here who regret exceedingly to learn of her death.

Mrs. Davies was notified of the critical illness of her sister, and left immediately for her bedside, but was intercepted by a telegram at Macon, Ga., announcing her death.

The remains were taken to McIntyre, Ga., where they were interred by the side of the husband of deceased. The funeral was attended by Mrs. Davies who is still in McIntyre.

A Complimentary Hop.

A complimentary hop will be given at the Elks' Home this evening, in honor of Misses Louise Harris and Alice Bullock, two charming young ladies of Ocala, who are visiting friends in this city. These young ladies have been the recipients of many courtesies, which they appreciate. They are possessed of that disposition which must make admirers everywhere, and their friends feel honored to favor them.

APPEARING OLD

Acts as a Bar to Profitable Employment.

You cannot afford to grow old. In these days of strenuous competition it is necessary to maintain, as long as possible, one's youthful appearance. It is impossible to do this without retaining a luxuriant growth of hair.

The presence of Dandruff indicates the presence of a burrowing germ which lives and thrives on the roots of the hair until it causes total baldness. Newbro's Herpicide is the only known destroyer of this pest, and it is as effective as it is delightful to use.

Herpicide makes an elegant hair dressing as well as a Dandruff cure. Accept no substitutes—there is none. Sold by leading druggists. Send the 10 stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and \$1.00. J. S. Bodford & Co., Special Agents.

Chamberlain's Cough Remedy
Cures Colds, Croup and Whooping Cough.

Shortening Sources

Lard is made from hog-fat; its origin is the pig-sty. It makes food greasy, indigestible and dangerous.

Cottolene comes from the cotton fields of the Sunny South. Its basis is the purest refined cotton-seed oil. It is pure, healthful, and makes digestible, nourishing food. It is Nature's gift from the Sunny South, and is the best frying and shortening medium possible to manufacture.

Once get in the habit of using Cottolene, and you will never let lard enter your kitchen again.

Nature's Gift from the Sunny South

THE SHOE RASP.

Once Familiar, It Took Its Departure With the Pegged Shoe.

"How many of the familiarly used things of the present day that we now consider as indispensable," said the middle aged man, "will in due time be supplanted by still better means, just as so many once familiar things of the past have been?"

"You take, for instance, the shoe rasp. There was a time when no shoe store could have got along without a shoe rasp. But in what shoe store would you find a shoe rasp in use now?"

"The shoe rasp was commonly attached to one end of a short counter that in most shoe stores stood at the front end of the store, the counter upon which shoes were done up. It was cast in the form of an insole of a shoe, slightly curved and having the rasp grooves cut on its convex side. Attached to this rasp on its concave side was a stout steel rod about a foot in length which was set upright in a stout wooden block firmly attached to the counter.

"So here we had a stoutly anchored rasp in a nearly horizontal position and with its cutting face up, a rasp over which you could draw a shoe in such a manner as to bring the inside of the sole in contact with it and with which you could rasp thoroughly every part of the inside of the sole of the shoe.

"But what did you want to rasp the inside of the shoe for? Why, to clear it of pegs that might be and probably were sticking up there, for in those days practically all the shoes made were pegged. The soles were pegged on to the uppers with wooden pegs which were of about the shape and size of pins, except that the shoe peg was pointed at only one end.

"In those days sewed shoes, which were then all sewed by hand, were rather expensive, and they were considered as more or less of a luxury to be worn only by people of very comfortable means or for best or Sunday wear.

"In the pegged shoes there were always more or less pegs sticking up, inside, and the use of the shoe rasp was to file these off so that the shoe would be comfortable to wear.

"A father would come in with his young son to buy a pair of shoes for him, and perhaps the boy was too young to be able to tell exactly where the pegs were. And when a pair of shoes had been selected for him the father was always certain to say to the shoe dealer, 'You'll be sure to get out all the pegs, won't you?' and the shoe dealer would say, 'Certainly, sure.' And in whatever case always the last thing done by the shoe man before he strapped up a pair of shoes would be to get out the pegs."—New York Sun.

Carré Nation

Certainly needed a hole in the bar-room of Kansas, but Ballard's Horehound Syrup has smashed all records as a cure for coughs, bronchitis, influenza and all pulmonary diseases. T. C. H., Horton, Kansas, writes: "I have never found a medicine that would cure a cough so quickly as Ballard's Horehound Syrup. I have used it for years." Sold by W. M. Johnson.

For the best price, call at The Sun office.
